

HMB Regulation and Requirements

Helmets

Greathelm

The Great Helm was an **additional** horsemen's helmet. Sources show an absence or very small number of decorative or breath holes on left side of the helmet. Visor holes are thin. It was worn as the second helmet to bascinets with chainmail or scale aventails.

Requirements to use Great Helms in HMB: :

- They should follow **the measures and proportions** of Great Helms
- They should follow requirements for **decorative, breath and visor holes**.
- They should be used only with **chainmail or scale gorgets**.

Sugarloaf helm

- Used **before 1350**.
- They should be used only with **chainmail or scale gorgets**.

Griffon helmet

Griffon-bascinet helmets are **permitted**.

Griffon topfhelm **should follow the source**: shape of the dome and the visor holes. It should be worn with chainmail or scale gorgets.
